Student Success for Students of Color

Monica Brockmeyer
Marquita Chamblee
Ahmad Ezzeddine

- Purpose
 - Examine the data behind falling enrollment and achievement gaps for students of color, particularly Black and Hispanic students.
 - Recommend a comprehensive set of corrective actions.
- Approach
 - Systematic review of student success, academic, financial and student engagement data.
 - Sampling of student transcripts.
 - Interviews with institutional stakeholders.

Diversity of the UG Population

Means the trend is improving

Black-White Graduation Rate Gaps

6 Year Graduation Rate

- If all race/ethnicity groups continue with the same levels of performance, we will not reach our graduation rate goals of 50%.
- If we reach our goal of 50% without significant improvements for students of color, our gaps will grow unacceptably wide - greater than 50%.
- We can meet and exceed our goals if we narrow gaps by 1% each year, while making improvements for all students.
- With additional investments we should be able to increase the rate of narrowing gaps over time.
