

**Discontinuance of the Graduate Certificate in Analytical Toxicology in the
Eugene Applebaum College of Pharmacy and Health Sciences**

Recommendation:

It is recommended that the Board of Governors approve the discontinuance of the Graduate Certificate in Analytical Toxicology, effective immediately.

Background:

The Occupational and Environmental Health Sciences Program was closed by the Board of Governors at its meeting of September 21, 2011. Closure of the Graduate Certificate program in Analytical Toxicology was inadvertently not included in the Board's action. The three Occupational and Environmental Health Sciences courses required for the certificate are no longer offered. As a result the Certificate has remained dormant since 2010:

Year	2009	2010	2011	2012	2013	2014
#Registered	1	1	-0-	-0-	-0-	-0-
#Awarded Cert	1	1	-0-	-0-	-0-	-0-

Approvals:

The discontinuance of this Graduate Certificate has been approved by Faculty of the Eugene Applebaum College of Pharmacy and Health Sciences, the Chair of the Department of Fundamental and Applied Sciences, the Associate Dean for Health Sciences, the Interim Dean of the College, the Graduate Council and the Dean of the Graduate School.
