

COURSE MATERIALS FEES ANNUAL REPORT
(2020)

Information Report

The Board Statute on Student Fee Assessment (2.74.07) provides that once a year the President or his/her designee shall provide the Board of Governors with a report on course materials and breakage fees. Under the Statute, these course materials fees may be assessed in instances where a large portion of instructional costs is due to the use of consumable resources and will occur principally in courses with associated laboratory work or similar uses of consumables. Departments provide the rationale for the fee and the justification for the level of the fee. Funds received from the fees are deposited into a General Fund account and may be used by the College only for expenses for those courses. Requests for new course material fees or changes in existing course fees require approval of either the Provost (\$100 and under) or the President (over \$100).

Appendix 1 provides the list of the changes in course materials fees approved to begin in the fall 2020 semester. Also listed are brief explanations for the course fee requests. This year there were 42 such requests that were approved. This compares to the 35 approved course material fee requests in 2017, and 122 such requests in 2018, 37 such requests in 2019.

The number of course material fee requests over \$100.00 numbered 13 this year compared to 5 in 2017, 3 in 2018, and 5 in 2019. All of the fees over \$100 occurred because of supplies needed in the College of Fine, Performing and Communication Arts, in addition, cadavers and software for the Eugene Applebaum College of Pharmacy & Health Sciences.
